St. Tammany Parish Public School System District Handbook
For Students and Parents

FOREWORD

The success of our students and the well-being of all in the St. Tammany Parish Public School System are our utmost concerns. We believe that the high expectations that parents and guardians, the community, and School System personnel have for our students and schools are best accomplished in partnership. This Handbook is designed to provide information about school district expectations, policies, and procedures to help students, school officials, and parents work together to ensure opportunities for St. Tammany Parish Public School System students to succeed.

This School System operates with the belief that instruction best occurs in a safe environment that is conducive to learning, free from distractions and disturbances. Our intention always is to provide students a learning climate that is positive and caring, while also orderly and effective in helping students and school personnel work productively toward mutual goals. Family help and cooperation in maintaining this climate are essential to realizing the high standards of achievement we, as a community, have set for students and schools.

Communication between home and school is vital. We encourage parents to talk with teachers and principals about special needs and concerns as they arise and participate as often as possible in student activities and school events. Parent involvement and student success go hand in hand.

We ask that parents and guardians take the opportunity to review the Handbook with their children and that they keep it as a reference for questions that may arise during the school year. Parents are encouraged to pursue any questions about the policies and procedures included by contacting their children's school principals. We are here to work with parents in meeting the needs of the students of St. Tammany Parish.

INTRODUCTION

The St. Tammany Parish Public School System District Handbook For Students and Parents is intended to help students, parents and guardians, and school officials work together to ensure students are successful in school and to help realize the mission and vision of this School System. Communication is an important key to this partnership. By providing this written detail of School Board policies and procedures for maintaining safe, effective operation of our schools and for promoting positive conduct of our students, we hope students and parents will have a clear understanding of these policies and procedures.

The Handbook covers information about:

- School System Mission and Vision;
- School, Student, and Home Partnership Roles and Responsibilities;
- Operation/Administration Policies, such as Student Records, Directory Information, Public Information Releases, Emergency School Closings, Bus Transportation; and

A Glossary at the end of the publication provides a reference for many terms used in the Handbook. Please see the Table of Contents for a complete listing of topics.

In addition to this District Handbook, students receive a school handbook each year that provides specific school regulations and other important information. We ask that parents, guardians, and students read and discuss both handbooks. Please contact school principals for any clarification of the information in either handbook. This Handbook also can be consulted on the St. Tammany Parish Public School System Web site at www.stpsb.org.

MISSION

The mission of the St. Tammany Parish Public School System is to provide a high-quality education for all students, resulting in life-long learners who can contribute positively to the society in which they live.
VISION STATEMENT
Our vision is to provide an exemplary school system, widely respected for high standards and first-rate performance and for outstanding student achievement. In this System, public schools are valued and supported and a strong partnership exists between educators, students, families, and the community to help ensure that:

- students have safe, caring environments for learning;
- students are positively challenged, enriched, and inspired;
- students learn to be self-motivated and life-long learners, prepared for life's pursuits; and
- students learn to be responsible and contributing members of a global society.

DISCIPLINE POLICY STATEMENT
The St. Tammany Parish School Board, as the governing body for the St. Tammany Parish Public School System, is responsible for establishing policies under which schools operate. To promote responsible student conduct and behavior, the School Board has adopted the Uniform Discipline Code for the School System.

The School System and school administrations are responsible for implementing the policies. The School Board reviews the School System discipline policies annually and adopts revisions as needed. Before the Board review of policies, the Parishwide Discipline Committee, comprised of educators, school administrators, parents, and students from across the System, evaluate current policies and offer input about possible revisions. The committee makes a recommendation to the School System Superintendent about the policies, and the Superintendent presents recommendations to the Board for its consideration.

Consistent with the laws of the State of Louisiana, the Board has established and adheres to the following goals for a Uniform Discipline Code.

- Develop in concert with administrators, teachers, students, and citizens a systemwide Uniform Discipline Code.
- Codify the penalties that are applicable systemwide, yet retain administrative flexibility in application.
- Permit individual schools to adopt additional regulations governing actions not covered by the code of conduct.
- Disseminate copies of the Uniform Discipline Code to each principal, faculty member, and student so that they may become familiar with its contents.
- Analyze and review the Uniform Discipline Code on an annual basis.

SYSTEMWIDE POSITIVE BEHAVIOR SUPPORT
The School System has a District Discipline Plan that was adopted using a model master plan from the State Board of Elementary and Secondary Education (BESE) and was designed to promote an effective learning environment in our schools. As part of this parish plan, each school has a discipline plan that includes the expectations of a program known as Positive Behavior Support (PBS). A PBS Team at each school analyzes relevant data to develop effective interventions to help ensure good conduct at school. The overall, systemic goal of PBS is to provide a positive climate within each school and ultimately lower the number of behavior concerns. Improving student conduct means higher student achievement, higher school performance scores, and greater overall success of the students in St. Tammany Parish. PBS includes, but is not limited to:

- a school disciplinary leadership team;
- identification of behavior issues in each school improvement plan;
- BESE-approved behavior forms;
- a school discipline flow chart;
- use of monitoring data to evaluate and modify the school master plan;
- behavioral expectations at the school;
- a reward/incentive program for positive behavior;
- defined, consistent consequences for rule violations;
- district-established discipline policies;
- appropriate Safe and Drug-free School activities; and
- a crisis management plan.

EDUCATION PARTNERSHIP ROLES AND RESPONSIBILITIES
Role of the School
The St. Tammany Parish School Board and its employees in the St. Tammany Parish Public School System are charged with providing high-quality educational opportunities for the students of this parish. The System daily works to address
the varied educational needs of students and to provide a safe, productive school environment for learning. Educators and System administrators know that these goals are best accomplished with the cooperation and support of students and their families.

Maintaining open, constructive communication between school and home in a climate of mutual respect is vital to meeting the needs of the students in this School System. School officials will work closely with students and their families to promote student success.

Role of the Student
Students learn best when they set high goals for themselves, work hard to achieve those goals, and conduct themselves responsibly in their school work and actions. Students need to adopt these practices to help ensure their success.

- Attend all classes daily.
- Be punctual.
- Be prepared for class with appropriate working materials and completed homework.
- Be respectful to all individuals and property.
- Be clean and neat.
- Be responsible for their own work.
- Abide by the rules and regulations of the school and School System.
- Maintain a positive attitude.
- Conduct themselves in a safe and responsible manner.

Role of the Home
Most agree that "the children's first and best teachers are their parents." The School System recognizes that student achievement is impacted greatly by the level of parent participation in a student's education. The value of a strong partnership between school and home is immeasurable, but sure, and parents or guardians are asked to adopt these basic practices to help school personnel work with students.

- Maintain regular communications with school teachers and school officials concerning their children's progress and conduct.
- Ensure their children are in school, on time, every day.
- Promptly report and explain to school officials any absence or tardiness. Assist and require children to be neat and clean.
- Notify school officials of any problem or condition that affects their children or others at school.
- Discuss report cards and school assignments with children.
- Assist children in assuming responsibilities at school.
- Maintain for school officials up-to-date home, work, and emergency telephone numbers and all other emergency and health information throughout the school year.
- Send children to school ready to learn.
- Students shall arrive to school no earlier than 30 minutes prior to the start bell and depart from school no later than 30 minutes after the dismissal bell each day.

OPERATION/ADMINISTRATION OF SCHOOLS
In addition to policies governing student conduct, this Handbook includes information about frequently asked questions concerning the operation of schools. A complete list of School Board policies is available on the System Web site at www.stpsb.org.

School-Home Communication
On-going, open communication among students, parents, and school officials is highly encouraged. Parents and guardians are urged to become actively involved in their children's education. Being available to their children to help ensure good school attendance, good work habits and conduct, and preparation for classes is an important way that parents can partner with schools.

Also, schools have a variety of opportunities for volunteers to make major contributions to schools. Participating in school events and activities brings families closer to their children's schools and helps ensure they are better informed about the schools. At the System level, parental input into such issues and policies as textbooks; discipline, promotion and grading policies; strategic planning; etc., is sought and utilized.
From time-to-time, students and parents may have questions or concerns about some aspect of school. Likewise, teachers and principals may have the need to discuss particular matters in conference with parents and students. Parents are urged to contact their children's teachers with any questions or concerns about their children and to respond to school requests for parent conferences.

If working directly with the teacher does not address concerns satisfactorily, parents are encouraged to contact school principals. School officials are very willing to work with parents to help ensure that the best interests of the children are served. Although most issues routinely are satisfied at the school level, the Central Office administration is available to discuss matters with parents if necessary.

Parent complaints should first be addressed to the school principal whose contact information is available in the school directory of our System Web site at www.stpsb.org/schools_directory.php. The designated supervisor who can assist parents with the complaint process is located at the C.J. Schoen Administrative Complex, 321 N. Theard Street, Covington, LA 70433 and can be reached by telephone at (985) 892-2276.

Student Records
The maintenance of student records requires special care to ensure the privacy rights of students and compliance with legal requirements governing these records, including the Family Educational Rights and Privacy Act (FERPA) (20 U.S.C.1232g) and LRS 17:3914. The relevant portions of this District handbook that pertain to student personally identifiable information shall serve as the school system policy adopted in accordance with LRS 17:3914(H). The latest version of the District Handbook for Students and Parents can be found on our system website at http://www.stpsb.org/DisciplineHandbook/DistrictHandbook.pdf.

Other Federal Statutes Affecting Educational Records
Various other Federal laws have been enacted since the tragedy of September 11, 2001, such as the USA Patriot Act, which revised portions of FERPA. Two additional Federal Acts are the No Child Left Behind Act and the Protection of Pupil Rights Act. The School System complies with all State and Federal privacy and educational records laws. Copies of these Federal statutes, their implementation regulations, and other information concerning parent and student rights under these laws can be obtained from the School Board by written request to Supervisor of Administration; St. Tammany Parish School Board; Federal Rights Section; 321 N. Theard Street; Covington, LA 70433.

The Protection of Pupil Rights Act (PPRA) 20 USC 1232h, 34 CFR Part 98 provides for the control and limitation of surveys involving pupils to include the provision that parents/guardians may opt out of such surveys.

Procedure for Inspection of Records
To inspect student records, requests must be made in writing to the St. Tammany Parish School Board. Requests should be addressed to Custodian of Student Records; St. Tammany Parish School Board; 321 N. Theard Street; Covington, LA 70433.

Amendments to Records
If, upon inspection of a student's records, a parent, eligible student or legal guardian believes that the education records contain information that is inaccurate, misleading, or otherwise in violation of the student's rights of privacy, an amendment to the record may be requested by submitting the requested amendment in writing to the School Board Office at the address in the preceding section. Any disagreement or amendment will be resolved informally, if possible, through the Superintendent or his designee. Only the Superintendent or his designee may authorize an amendment to the education records of a student. If an amendment is not granted, the parent(s) or eligible student may within 30 days of mailing of notification from the Board, request a hearing. The request must be in writing to the Superintendent, mailed to the School Board Office at the address above. The request must be received by the St. Tammany Parish School Board within 30 days.
in order to be considered. The 30-day period commences on the day after the date of the notice denying the initial request for amendment.

   - LRS 17:81(N) provides for the release of student information to state and local law enforcement officials and officials within the office of juvenile justice.

Examples of such contracts include but are not limited to Student Information Systems, Special Education Reporting systems, etc.

**Approved Access**

Unless directed in writing otherwise by a student’s parent, eligible student or legal guardian, the Board approves a person employed in a school or person authorized by the superintendent to provide access to certain student personally identifiable information in accordance with FERPA and LRS 17:3914, as follows:

Such termination does not apply to information generated/released prior to the receipt of consent termination.

**Directory Information**

The School Board may provide access to information designated as "directory information" on-site in general and private access areas of a school or school system facility, and to school-sponsored or school-related organizations. The following information is designated as directory information:

Examples of school sponsored or school-related organizations includes but is not limited to:

- Project Graduation;

If a parent, eligible student or legal guardian wishes to have the student's directory information excluded from directory data, except as provided by law, he or she must contact the school office and complete a "Release Clarification Form". Such termination does not apply to information generated/released prior to the receipt of consent termination. The parent, eligible student or guardian must complete and submit this form to the school principal each academic year within the first two (2) weeks after the school session begins in the fall in order to prevent disclosure of directory information pertaining to that student. If a student enrolls during an academic year, the parent, eligible student or guardian may prevent the disclosure of directory information pertaining to that student by completing and submitting the form to the school principal within two (2) weeks of enrollment.

**Collection and Disclosure of Information Related to Postsecondary Education**

Upon obtaining the written consent (via the Release of Student Information consent form) from a parent, or student who has reached the age of majority or legal guardian of a student, the Board shall collect the following information from each student in grades eight through twelve:

(a) Full name.
(b) Date of birth.
(c) Social security number.
(d) Student cumulative transcript data.

The consent authorizes the Board to provide such information to the Louisiana Office of Student Financial Assistance (LOSFA), any Louisiana postsecondary education institution, and the Louisiana Board of Regents. This information is released for TOPS eligibility and processing of applications for admissions and state and federal aid. The failure to provide written consent for collection and disclosure of a student's information will result in delays or may prevent the successful application for admission to post-secondary institution and for state and federal student financial aid. Once obtained such written consent shall continue year to year until withdrawn by the parent, eligible student or legal guardian. If a parent, eligible student or legal guardian wishes to deny consent for release of information related to postsecondary education, except as provided by law, he or she must contact the school office and complete a "Release Clarification Form". Such termination does not apply to information generated/released prior to the receipt of consent termination.
Access by the Louisiana Department of Education

LRS 17:3914 provides limitations on the access to student personally identifiable information by the Louisiana Department of Education.

(a) Provide a student's identification number as provided by law, and aggregate data to the local school board, the state Department of Education, or the State Board of Elementary and Secondary Education solely for the purpose of satisfying state and federal reporting requirements.

(b) Provide to the state Department of Education, for the purpose of satisfying state and federal assessment, auditing, funding, monitoring, program administration, and state accountability requirements, information from which enough personally identifiable information has been removed such that the remaining information does not identify a student and there is no basis to believe that the information alone can be used to identify a student. No official or employee of the state Department of Education shall share such information with any person or public or private entity located outside of Louisiana, other than for purposes of academic analysis of assessments.

(c) Provide personally identifiable information regarding a particular student to any person or public or private entity if the sharing of the particular information with the particular recipient of the information has been authorized in writing by the parent or legal guardian of the student, or by a student who has reached the age of legal majority, or if the information is provided to a person authorized by the state, including the legislative auditor, to audit processes including student enrollment counts. Any recipient of such information shall maintain the confidentiality of such information. Any person who knowingly and willingly fails to maintain the confidentiality of such information shall be subject to the penalties provided by law.

(d) Provide for the transfer of student information pursuant to the provisions of R.S. 17:112.

Public Information/Communications Releases

In order to help keep the public informed about schools and to recognize students and staff for their accomplishments, students are sometimes included in school and/or System information that is distributed to the public. From time to time, newspaper, broadcasting, media outlets and System personnel may interview, videotape, voice record, and/or photograph students for these purposes. The System websites and educational television station are used widely to highlight student achievements and activities. A student’s voice, likeness, and/or work may be used in print publications, press releases, audiovisuals, and websites, including social media, issued by employees or designees of the Board. Student work includes, but is not limited to, written work, art, music, etc. The information may be used by members of the media with permission of officials from the schools or offices within the St. Tammany Parish Public School System. These items include, but are not limited to, photographs, videotapes, live broadcasts, sound recordings, and/or other electronic transmissions, including social media, related to school activities. The release of such information may identify the class, school, or program attended by the student. No compensation or reimbursement of any kind related to the use of the above information will be paid to a parent, student or legal guardian. The above referenced information may be used in subsequent years without additional consent. To ensure that parents, eligible students and guardians agree to participation, they are asked to sign and return a Release of Student Information Consent form to permit such participation. Once obtained such written consent shall continue year to year until withdrawn by the parent, eligible student or legal guardian. If a parent, eligible student or legal guardian wishes to deny consent for public information and communication releases, except as provided by law, he or she must contact the school office and complete a "Release Clarification Form". Such termination does not apply to information generated/released prior to the receipt of consent termination. Termination is effective beginning at 4:30pm local time the day after receipt.

Emergency School Closings

Occasionally, schools or a school may need to close due to an emergency. Notification of emergency closings is given as soon as possible to parents and caretakers.

Notifications about closings and re-openings are made through recorded emergency phone calls, the School System website, www.stpsb.org, the School System mobile app, STPPS Facebook and Twitter accounts and the local media.

In cases of potential severe weather, School System officials are in constant communication with the National Weather Service, St. Tammany Parish Emergency Preparedness officials, and Superintendents around the region to make decisions about school closings. Even with the assistance of these officials, weather conditions are often impossible to predict. During severe weather conditions, School System officials must try to decide what is best for the district’s students and employees.

Parents and caregivers should communicate with their child’s school and discuss their individual circumstances as it relates to absences and make-up work.
Emergencies may cause delayed dismissal or early dismissal from school. In case of delayed dismissal, students may arrive at their bus drop-off sites later than usual. If school officials are not able to notify parents about early dismissal, students may be kept at school until parents can arrange for students to be picked up.

Parents and caretakers should make sure schools have current emergency contact information so they can be reached in the event of an emergency.

**School Bus Transportation**

Students living one or more miles from the schools in their attendance boundary areas are eligible to ride School System provided school buses to schools in their attendance areas. Bus routes and times for pick-up and delivery of students are determined by the System Transportation Departments. Routes and times are established before the start of school in the fall. Adjustments sometimes are required after the school year begins, and those changes are made as quickly as possible, usually within the first weeks of the school year.

Bus transportation is provided for the academic school day. Parents and students provide transportation for extracurricular activities outside the academic school day. Field trips during the academic day are arranged by school personnel.

School officials and the Transportation Departments have listings of bus drivers and their routes. Parents and guardians may contact either to get a telephone number for their children's bus drivers. Bus drivers can give parents specific information about bus stop sites and times for pick-up and delivery.

If, as infrequently happens, a school bus is involved in an accident or breakdown, arrangements are made to transport students either by transferring students to another bus or by calling parents to pick up their children at a designated site. To be abundantly cautious, emergency medical arrangements may be utilized. Up-to-date parent contact numbers and emergency contact numbers are important to help school personnel contact parents if needed.

School buses and drivers operate under all Federal and State laws governing the transportation of school children. Drivers are licensed and take part in required safety programs. Buses are inspected regularly for safe operation.

**MAINTAINING A SAFE, EFFECTIVE LEARNING ENVIRONMENT**

The policies and procedures outlined in this *Handbook* are intended to help provide a learning environment for students that is safe, free of disruption, and positive.

**Visitor Authorization**

School personnel within the School System strive to make schools inviting, welcoming places for parents and others visiting schools. At the same time, the staffs of all schools recognize their important responsibility to help safeguard those at school. Visitors are welcome during appropriate times of day and with permission to be on the school campus. Upon entering, the visitor must present a valid drivers license to be scanned for approval.

To help ensure the safety of students and school staff while on school campuses, the System and State of Louisiana have established policies and laws regarding visitors coming onto school campuses. These policies and laws are designed to help school personnel identify those people from outside the school who are on school grounds or inside the school and determine their reasons for being at school. Each school within the School System has written regulations and procedures for permitting specific visitation to approved areas on school grounds or in any school building or other facility during school hours.

Visitor regulations and procedures include, but are not limited to, the following:

- No person may go on school grounds or in any school building or other facility without permission from the appropriate school official. Visitation may be confined to approved areas.
- All persons must report to the administrator's office immediately upon arrival at school.
- All persons must sign in and out as required by the school administrator.
- All persons must receive an "Official Visitor Identification" as required by the school administrator.
- All persons must leave the school building, facilities, and grounds upon completion of business.
**Policy Addressing Employee Electronic Communication with Students**

The St. Tammany Parish School Board is committed to the safety of its students, faculty, staff and visitors. The Board and its employees must hold themselves to the highest moral and ethical standards. Interactions between employees, parents and students should be cooperative and respectful. This Policy is intended to comply with all applicable State and Federal laws, including the most recent action taken in Act 214 by the 2009 Louisiana Legislative Session, Louisiana Revised Statute 17:81(Q).

The St. Tammany Parish School Board acknowledges that technology has advanced to the point that many telecommunication devices are easily accessible and allow swift communication. Electronic Communication is defined as a message/interaction through System-provided and personal devices which provide direct communication, including, but not limited to, voice or text-based telecommunication devices and computers, and other venues that facilitate indirect contact/cyber-interaction using an intermediate method, including, but not limited to, internet-based social networks.

The Superintendent shall be responsible for establishing the mandated written procedures and guidelines that will provide a protocol for the management and administration of the components of this Policy. The procedures and guidelines are to introduce procedures to ensure that the staff, students and parents are informed. These procedures and guidelines shall be in compliance with law and provide continuity and consistency.

The procedures and guidelines are intended to promote the appropriate student-staff interaction by consistently implementing a planned management strategy. This Policy is not intended to limit or impede the use of technology as a meaningful teaching tool. Such procedures and guidelines, as adopted, shall be made available each year to all System employees, parents and students. Nothing in this Policy shall be construed to deny any employee of his right to due process under the law. The St. Tammany Parish School Board shall not be civilly liable for any electronic communication by an employee with a student that is prohibited as provided in this Policy and the Superintendent’s procedures and guidelines.

**The Superintendent’s Procedures and Guidelines Addressing Employee Electronic Communications with students is posted on the School System web site.**

**Medication Policy**

Illness and administration of medication among students is taken very seriously. Students who are sick cannot learn well. Proper medical attention and convalescence are important to the long-term health of students, the health of others at school, and student performance. When students must take medication at school, school personnel are very careful to ensure that students are properly treated with medication and that medication is not given to or used by students for whom the medication was not prescribed.

Parents are encouraged to work with physicians to schedule doses of medication that can be given at home for acute illnesses. Long-term illness and use of medication may require administration during school hours. In accordance with State law enacted to address the administration of all prescription and non-prescription drugs in schools, the St. Tammany Parish School Board has formulated the following regulations to be followed when a child must receive medication during school hours.

- No medication, including over-the-counter medication, may be administered to, or self-administered by, any student without an order from a Louisiana or adjacent state's licensed physician, dentist, or other authorized healthcare prescriber, and a letter of request and authorization from the student's parent or guardian.
- Only oral, pre-measured aerosols for inhalation, topical ointment for diaper rash, and emergency medications may be administered at school by unlicensed, trained personnel who are under the supervision of the certified school nurse.
- No medication, including over-the-counter medication, may be administered to, or self-administered by, any student unless the medication is provided to the school in a container that meets acceptable pharmaceutical standards.
- Only medications that cannot be administered before or after school hours may be administered at school.
- The parent or his/her designated adult is held responsible for delivering medication to the school and to the school employee designated to receive it. The parent or designated adult also is responsible for retrieving unused medication from the school.
- All medication not retrieved by a parent or designated adult will be destroyed one week after the expiration date or at the end of the school year, following notification of the parent.
- Self-administration of medication by a student with asthma or diabetes or the use of auto-injectable epinephrine by a student at risk of anaphylaxis, may be allowed provided the parent or legal guardian provides written authorization and submits from a licensed medical physician or other authorized healthcare prescriber written certification for the
student to carry and self-administer such prescribed medications. The written certification from the healthcare prescriber must also include a written treatment plan for managing the health condition and verification of proper self-administration instruction. Self-administration of medication will be allowed if the certified school nurse verifies the student uses proper procedure and technique. A school nurse or trained employee may administer auto-injectable epinephrine to respond to a student’s anaphylactic reaction.

- The initial dose of medication must be administered at home and sufficient time must be allowed for observation of adverse reactions before asking school personnel to administer the medication.
- Students who violate the medication policy and are found to be in possession of prescription drugs or a controlled substance not authorized under this policy shall be subject to disciplinary action found under the Uniform Discipline Code. Students found to be in possession of nonprescription or over the counter medications may be subject to disciplinary action.

**Health Record**

Louisiana law requires children who are 11 or older and are entering the sixth grade must have proof they have received the meningococcal (meningitis) vaccine and the Tetanus Diphtheria Acellular Pertussis vaccine (Tdap). These vaccinations are in addition to those required for registration and school entry. Refer to La. R.S. 17:170 for additional provisions on immunization requirements.

In accordance with La. R.S. 17:2112, sight and hearing testing shall be completed on an academic year schedule aligned to the recommendations of the American Academy of Pediatrics. If a parent or eligible student wishes to have the student excluded from sight and hearing testing, he or she must submit a written request to the school principal and the school nurse each academic year within the first two (2) weeks after the school session begins in the fall. If a student enrolls during an academic year, the parent or eligible student must submit a written request for exclusion to the school principal and the school nurse within two (2) weeks of enrollment.

**Immunizations**

The St. Tammany Parish School Board shall require each student entering any school for the first time and at any other time to present satisfactory evidence of immunity to or immunization against vaccine-preventable diseases according to state law and a schedule approved by the state Department of Health and Hospitals (DHH), Office of Public Health (OPH), or present evidence of an immunization program in progress. The School Board may require immunizations or proof of immunity more extensive than required by the Department of Health and Hospitals (DHH), Office of Public Health (OPH). Any student failing to meet the immunization standards shall be prohibited from attending school until such time as the immunization standards are met.

In progress shall mean that the student has an immunization due after the date school has begun, because the student began his/her immunization late, or because the student’s pediatrician has provided written orders for the student to receive an immunization after a certain date.

**Transferring Students**

A student transferring from another school system in or out of the state shall submit either a certificate of immunization or a letter from his/her personal physician or a public health clinic indicating immunization against the diseases in the schedule approved by the Office of Public Health have been performed, or a statement that such immunizations are in progress.

If booster injections for the diseases enumerated on the state schedule are advised, such booster injections shall be administered before the student enters a school system within the state.

**Enforcement**

Principals or their designated representatives, shall be responsible for checking students’ records to see that the provisions of this policy are enforced, and to electronically transmit immunization reports to the OPH through the *Louisiana Immunization Network for Kids Statewide*, when capable.

**Exceptions**

No student seeking to enter any public school in St. Tammany Parish shall be required to comply with the provisions of this written policy if the student or his/her parent or guardian submits either a statement from a physician stating that this procedure is contraindicated for medical reasons, or a written dissent from the student or his/her parents.
Exclusion from Attendance
If an outbreak of a vaccine-preventable disease occurs, upon the recommendation of the State Office of Public Health, school administrators may exclude from attendance unimmunized students until the appropriate disease incubation period has expired, or the unimmunized person presents evidence of immunization.

Student Fees, Fines and Charges
The St. Tammany Parish School Board may impose certain student fees or charges to help offset special costs incurred in the operation of specific classrooms or subjects. Generally, students should not be denied or delayed admission nor denied access to any instructional activity due to failure or inability of their parent or guardian to pay a fee. Report cards and other academic records cannot be withheld for failure to pay a fee, pursuant to La. Rev. Stat. Ann. §17:112(C).

The School Board shall publish the Student Fees, Fines and Charges policy and procedures on its website. Each school shall publish the policy on its website and include it in the school's student handbook which shall be provided to each student and his/her parent or legal guardian at the beginning of each school year in the manner determined by the School Board.

The Student Fees, Fines and Charges policy shall be reviewed annually and revised as necessary.

Definitions
Fees shall mean any monetary payment or supplies required as a condition of a student being enrolled in school or participating in any curricular or co-curricular activity. Fees shall not include supplies or monetary payment for extracurricular activities. Fees shall not mean the cost of school meals.

Curricular and co-curricular activities are activities that are relevant, supportive, that are an integral part of the program of studies in which the student is enrolled, and that are under the supervision and/or coordination of the school instructional staff.

Extracurricular activities are those activities which are not directly related to the program of studies, which are under the supervision and/or coordination of the school instructional staff, and which are considered valuable for the overall development of the student.

Regulations
1. A school shall not charge or access a fee unless the fee has been set and included in the School Board’s approved Schedule of Fees.
2. Fees charged for the same item or service shall be consistent among all schools under the jurisdiction of the School Board.
3. Failure by a student, or parent on behalf of their child, to pay any required fee shall not result in the withholding of a student’s educational record.

Schedule of Fees
A list of authorized fees, including their purpose, use, amount or authorized range, and how each fee is collected, shall be as listed on the Schedule of Fees (Appendix A) attached to this policy.

Economic Hardship Waivers
A student or his/her parent or legal guardian may request and receive a waiver of payment of a fee due to economic hardship. Waivers of fees shall be granted based on objective criteria which shall include, but not be limited to the following, relative to the student or his/her family:

1. Is receiving unemployment benefits or public assistance including Temporary Assistance for Needy Families, Supplemental Nutrition Assistance Program, supplemental security income, or Medicaid.
2. Is in foster care or is caring for children in foster care.
3. Is homeless.
4. Is serving in, or within the previous year has served in, active military service.
5. Is eligible for free or reduced priced meals in schools not participating in the Community Eligibility Provision Program.
6. Is an emancipated minor.
A written request for a waiver of fees shall be submitted to the principal of the school or his/her designee for consideration. Proof of eligibility shall be included with the fee waiver request. A written decision on the waiver request shall be rendered within five (5) school days of the date of receipt of the request. Should the initial request to the principal of the school for a waiver be denied, a written appeal may be made to the Superintendent or his/her designee, who shall respond to the appeal in writing within five (5) school days of the receipt of the appeal.

All requests for economic hardship waivers of student fees and any and all supporting documentation used in considering the validity of any request for a waiver shall be confidential.

All records associated with a fee waiver request due to economic hardship shall not constitute a public record, but may be audited to ensure compliance with the School Board’s policy. A student’s personally identifiable information associated with such a waiver request shall not be made public.

**School Supplies**

School supplies requested by classroom teachers of a student's parent or legal guardian shall not exceed a published amount per student per school year as determined by the School Board. Each school principal shall approve all school supplies requested by classroom teachers. Prior to assessing a fee for school supplies or developing a school supply list, consideration shall be given to the existing school supply inventory. A student shall not be denied the opportunity to participate in a classroom activity due to his or her inability to provide requested supplies.

**Damage to Textbooks/Instructional Materials**

The School Board may require parents and/or legal guardians to compensate the school district for lost, destroyed, or unnecessarily damaged books and materials, and for any books which are not returned to the proper schools at the end of each school year or upon withdrawal of their dependent child. Under no circumstances may a student of school age be held financially responsible for fees associated with textbook replacement.

Compensation by parents or guardians may be in the form of monetary fees or community/school service activities, as determined by the School Board. In the case of monetary fees, fines shall be limited to no more than the replacement cost of the textbook or material, but may, at the discretion of the School Board, be adjusted according to the physical condition of the lost or destroyed textbook. A school system may waive or reduce the payment required if the student is from a family of low income and may provide for a method of payment other than lump-sum payment.

In lieu of monetary payments, both school systems and parents/guardians may elect to have students perform school/community service activities, provided that such are arranged so as not to conflict with school instructional time, are properly supervised by school staff, and are suitable to the age of the child.

Under no circumstances may a school or school district refuse the parent/guardian the right to inspect relevant grades or records pertaining to the child nor may the school or school district refuse to promptly transfer the records of any child withdrawing or transferring from the school, per requirements of the Federal Family Educational Rights and Privacy Act.

Under no circumstances may a school or school district deny a student promotional opportunities, as a result of failure to compensate the school district for lost or damaged textbooks. Students shall not be denied continual enrollment each grading period nor re-entry in succeeding school years as a result of lost or damaged books.

Students shall not be denied the use of a textbook during school hours each day. The school system shall annually inform parents and/or legal guardians of the locally adopted procedures pursuant to state law and regulation, regarding reasonable and proper control of textbooks.

Uniform Discipline Code
The Uniform Discipline Code of the St. Tammany Parish Public School System is designed to ensure that each classroom will have a climate of order, discipline, control, and learning—a climate that brings out the best qualities in both the teacher and the students and allows for individual growth and differences. Foremost, the Code is a strategic tool to discourage misconduct and, thereby, increase the educational benefits to which all students have rights.

The Code describes inappropriate student behavior, prescribes equitable disciplinary actions for misconduct, and suggests specific actions for correcting prohibited behaviors.

Administrators are to use reasonable judgment when administering the Code. The Code is based on the premise that rules must be consistently enforced. Further, the rules must be fair and effective and comply with the student's constitutional and other legal rights.

Staff implementing the Code will recognize the differences in age and maturity of students, as well as mitigating circumstances that may impact a situation. As students advance in age and maturity, they are expected to assume greater responsibility for their actions. Age and circumstances may require that different types of disciplinary action be used. Assistance is available for students whose misbehavior is related to the use of alcohol or other drugs.

The disciplinary actions listed in the Code indicate the range of consequences for misconduct. Listed below are student conduct rules that are designed to encourage appropriate student behavior. Please consult the Glossary of this publication for definitions of terms related to disciplinary actions and acts of misconduct.

Compulsory Attendance
The State of Louisiana requires that all children from their seventh to their eighteenth birthdays must attend a public school, private day school, or must participate in an approved home study program. Any student above the compulsory attendance age who has excessive absences may be dropped from school with principal recommendation.

School attendance is imperative, not only to satisfy requirements of the law but to help ensure student achievement and success. Every missed day of school is a missed opportunity to learn. As per State policy, St. Tammany Parish Public schools are responsible for enforcing the following requirements:

- Students are expected to be in attendance every student activity day scheduled by the St. Tammany Parish School Board.
- Schools must administer attendance regulations in accordance with State and locally adopted policies.
- In order to be eligible to receive credit for courses passed, high school students may not miss more than five (5) days of non-exempted excused absences, unexcused absences, and/or suspensions per semester.
- Elementary students may not miss more than ten (10) days of non-exempted excused absences, unexcused absences, and/or suspensions per year. Students in grades K-8 who miss more than three (3) hours of instructional time during the school day will be considered absent for the entire day.
- Students participating in school sponsored activities/field trips that necessitate their being away from school shall be considered to be present and shall be given the opportunity to make up work.

Types of Absences
There are four types of absences a student may obtain: Type One: Exempted, Excused; Type Two: Non-Exempted Excused; Type Three: Unexcused; and Type Four: Suspensions.

**Type One Absence: Exempted, Excused**
Exempted, excused absences are those that allow the student to make up work missed and will not be counted against students in determining whether a student meets attendance requirements. There is no limit to the amount of exempted, excused absences a student can incur.

The exempted, excused absences are defined in the attendance policy as the following:

- Extended personal physical or emotional illness as verified by a physician or nurse practitioner licensed in the state.
- Extended hospital stay as verified by a physician or nurse practitioner licensed in the state.
- Extended recuperation from an accident as verified by a physician or nurse practitioner licensed in the state.
- Extended contagious disease within a family in which a student is absent as verified by a dentist or physician licensed in the state.
- Observance of special and recognized holidays of the student’s own faith with documentation provided.
• Visitation with an immediate family member who is a member of the United States Armed Forces or the National Guard of a state and such immediate family member has been called to duty for or is on leave from overseas deployment to a combat zone or combat support posting with proper documentation. These absences shall not exceed five days per school year.
• Travel for educational purposes. These absences must be approved prior to the travel with the supporting documentation submitted to the principal. Verification of the educational experience must be submitted upon return to school.
• Death in the immediate family with documentation. These absences shall not exceed five days.
• National catastrophe and/or disaster.

Type Two: Non-Exempted Excused Absences
Non-exempted excused absences are those incurred due to personal illness or serious illness in the family documented by parental notes. These absences allow the student to make up work missed and are considered in determining whether the student meets attendance requirements.

Type Three: Unexcused Absences
Unexcused absences are absences where a note is not provided to the principal, a note is provided outside of the specified time, or fails to meet the criteria to be excused. Students are not allowed to make up work for grading purposes and will be given failing grades for those days missed. These absences count against the student when determining whether the student meets attendance requirements.

Type Four: Suspensions
Suspensions are non-exempted absences. Students are allowed to make up work when suspended from school. The value of the work is determined by the school’s discipline guidelines. These absences count against the student when determining whether the student meets attendance requirements.

Absences Procedures
Excuses for all absences must be presented in writing to the school principal or designee within two (2) days of the absence. The note must include the student’s full name, days of absence, reason for absence and/or doctor’s verification, parent/guardian signature and date of signature. Failure to send the note will result in the student not being able to make up missed coursework, and zeros for that work will be given.

In elementary through junior high school, when a student accumulates seven (7) absences which include non-exempted excused, unexcused, and/or suspensions, notification will be made to the parents/guardians. After the tenth (10) absence which includes non-exempted excused, unexcused, and/or suspensions, the school will notify parents/guardians of the seat time recovery requirements.

In high school, when a student accumulates three (3) absences in a semester which include non-exempted excused, unexcused, and/or suspensions, notification will be made to the parents/guardians. After the fifth (5) absence in a semester which includes non-exempted excused, unexcused, and/or suspensions, the school will notify parents/guardians of the seat time recovery requirements.

Seat Time Recovery Requirement
Students in danger of failing due to excessive absences may be allowed to make up missed seat time held outside of the regular school day. The makeup sessions must be completed before the end of the current semester for high school students and the end of the year for elementary/junior high students.

Truancy
Parents will receive notification of the State truancy policy at the beginning of the school year. Any juvenile student who is habitually absent or tardy from school will be reported as a truant child to the Supervisor of Child Welfare and Attendance, the family and/or juvenile court according to the provisions of Louisiana Children’s Code regarding families in need of services.

Tardiness
Students who frequently arrive late for school lose valuable instructional time, learn unproductive work habits for the future, and create needless disruption to the school and classroom setting. Every school has a policy for tardiness that is enforced
to help ensure the maximum, high-quality instructional time for all students at the school. Parents are urged to support the academic success of students by requiring and assisting students to be on time for school every day.

**Dress and Personal Grooming**

Providing an effective learning environment for all students includes expectations that students are well-kempt, dressed and groomed in a manner that permits them to actively participate in school and that does not distract the education process. Student dress and grooming are not to adversely affect the student's participation in classes, school programs, or other school-related activities. Extremes in style and fit in student dress and extremes in style of grooming will not be permitted.

School principals maintain the right to determine extremes in styles of dress and grooming and appropriateness and suitability for school wear. Body-piercing ornaments are limited to the ears, if ear-piercing ornaments are approved at the school level. No student may wear, possess, use, distribute, display, or sell any clothing, jewelry, emblem, blade, symbols, sign, or other things that are evidence of affiliation in any gang.

Parents are allowed to vote, according to provisions of the School Board School Uniform Policy, whether or not students in their children's schools wear school uniforms. Information about school uniforms is provided at the school. The provisions of the Student Dress Code apply to uniforms. Information on the School System Uniform Policy is available on the System Web site at www.stpsb.org.

A violation of student dress regulations is a Group 2 offense in the Code of Conduct and results in disciplinary action that includes suspension.

Policies regarding dress and grooming stress the importance of reducing distractions that inhibit learning and are addressed as an attempt to enhance the safe learning environment.

- An acceptable, well-groomed haircut will be required of all male students. Styles never should be such that they represent a collective or individual protest.

Responsibilities for Conduct
The school shares the responsibility with parents to educate, guide, and discipline children at school and school-related activities. Discipline is expected to be handled in a fair, consistent, and impartial manner to help ensure that a proper climate for learning exists. All student disciplinary decisions are confidential and are not shared with other students or parents of other students.
State and Parish laws and guidelines hold the staff of each school responsible for the maintenance of discipline at the school and school functions. All school personnel also are responsible daily to see that the learning environment is free from disruptions that affect the learning process. Ultimately, however, the primary responsibility for student conduct rests with students and their parents or guardians. Cooperation and support among school personnel, students, and parents in helping students conduct themselves with respect and good character are keys to student success and effective schools.

Louisiana Revised Statute 17:416 requires the following standards for maintaining well-disciplined schools.

- Every teacher shall endeavor to hold every pupil to a strict accountability for any disorderly conduct in school or on the playgrounds of the school, on the street or road while going to or returning from school, or during intermission or recess.
- School principals may suspend from school any pupil who:
  - is guilty of willful disobedience;
  - treats, with intentional disrespect, a teacher, principal, superintendent, member or employee of the local school board;

Classroom Regulations

Teachers use a variety of means to keep students interested and on-task and to maintain order in their classrooms, but if students choose to break classroom or school rules, teachers are expected to address the situations for the good of the classrooms. Each teacher may take disciplinary action to correct a pupil who disrupts normal classroom activities, disrespects a teacher, willfully disobeys a teacher, uses abusive or foul language directed at a teacher or another pupil, violates school rules, or interferes with an orderly educational process.

Disciplinary action may include, but is not limited to:

- oral or written reprimand;
- referral for counseling session;
- written notification to parents of disruptive or unacceptable behavior;
- immediate removal of the student from the classroom and placement with the principal or his designee (Note: Upon the third removal from the same classroom, a conference between the teacher or other appropriate school employee and the pupil's parent or legal guardian will be required prior to the pupil being readmitted.); and/or
- other disciplinary measures approved by the principal and faculty of the school and in compliance with School Board policy.

Respecting the authority of teachers is essential to creating an environment conducive to learning, effective instruction, and proper administration of schools. To maintain and protect that authority, teachers have the following rights identified in law as the Teacher Bill of Rights.
1. A teacher has the right to teach free from the fear of frivolous lawsuits, including the right to certain immunity and to a legal defense.
2. A teacher has the right to appropriately discipline students.
3. A teacher has the right to remove any persistently disruptive student from his classroom when the student's behavior prevents the orderly instruction of other students or when the student displays impudent or defiant behavior and to place the student in custody of the principal or his/her designee.
4. A teacher has the right to have his or her professional judgment and discretion respected by school and district administrators in any disciplinary action taken by the teacher.
5. A teacher has the right to teach in a safe, secure, and orderly environment that is conducive to learning and free from recognized dangers or hazards that are causing or likely causing serious injury.
6. A teacher has the right to be treated with civility and respect.
7. A teacher has the right to communicate with and to request the participation of parents in appropriate student disciplinary decisions.
8. A teacher has the right to be free from excessively burdensome disciplinary paperwork.
9. A beginning teacher has the right to receive leadership and support, including the assignment of a qualified, experienced mentor who commits to helping him become a competent, confident professional in the classroom and offers support and assistance as needed to meet performance standards and professional expectations.

Consequences of Student Misconduct
This section of the *Handbook* describes a broad range of acts of misconduct that are prohibited in school. The following charts do not include all types of misconduct, and students who commit acts of misconduct not listed on the charts will be subject to the discretionary authority of the classroom teacher and the principal or his/her designee. The seriousness of the offense, academic placement, attitude, age, pattern of misconduct, and degree of cooperation of the student, and any other aggravating or mitigating circumstances will be considered in determining which actions should be taken. The process is intended to be instructional and corrective, not punitive.

The policies and administrative procedures apply to actions of students during school hours, before and after school, while on school property, while traveling in vehicles operated on behalf of the School Board, at all school-sponsored events and otherwise when the actions affect the goals or operations of the St. Tammany Parish Public School System. The principal is expected to report serious, disruptive, or criminal actions to law enforcement officials.

Disciplinary actions for misconduct may include a conference between the teacher or principal and the student followed by notification of the parent(s) or guardian(s). Any student, parent(s), or guardian(s) who believes that the disciplinary action taken is unwarranted has the right to appeal to the principal. When parents or guardians refuse to participate in conferences, principals or their designees may impose the maximum disciplinary action within the appropriate discipline group.

Incorrigible children who, through no fault of their parents, guardians, or other persons having charge of them, regularly disrupt the orderly processes of the school will be considered as delinquents and may be reported by a Supervisor of Child Welfare and Attendance to the juvenile court of the Parish to be dealt with in the manner prescribed by law. Unless otherwise provided by R.S. 17:416, any student who exhibits disruptive behavior, an incorrigible attitude, or any other discipline problems in general may be recommended by the principal for expulsion, assignment to an appropriate alternative educational program, or transfer to adult education if such student is:

- 17 years of age or older with less than 5 units of credit toward graduation;
- 18 years of age or older with less than 10 units of credit toward graduation; or
- 19 years of age or older with less than 15 units of credit toward graduation.

Acts of Misconduct/Possible Disciplinary Actions
The Uniform Discipline Code established for all students in the St. Tammany Parish Public School System is expected to be followed and enforced in the same spirit and manner throughout the School System. Staff members will ensure due process for each student and will consider all mitigating circumstances prior to disciplinary action as possible. Mitigating circumstances include, but are not limited to, the following factors:

- age, maturity, and class
- willingness to make restitution
- placement of student
- seriousness of offense(s)

NOTES
1. Refer to section on School Drug Detection and Control Program.

3. Students found using, possessing and/or concealing a knife, a firearm, a weapon that may discharge a projectile, or other dangerous instruments that may cause bodily harm will be suspended immediately and recommended for expulsion. Law enforcement may be notified. If recommended for expulsion or suspension then law enforcement will be notified. Students using, possessing, and/or concealing any look-alike object that may have the appearance of a weapon or dangerous instrument will be suspended immediately from school and recommended for expulsion. In the case of a student in preschool through grade 3 who is found carrying or possessing a knife, the principal may, but will not be required to, recommend the student's expulsion. Upon the recommendation for expulsion, a hearing will be conducted by the Superintendent or his designee. Upon the conclusion of the hearing, the Superintendent or his designee will determine whether the student will be expelled from the School System or whether other corrective or disciplinary action will be taken. Students in grades six or higher who are found guilty of using, possessing, and/or concealing a firearm or other weapon that may discharge a projectile, when on school property, on a school bus, or in their actual possession at a school-sponsored event, following a hearing, will be expelled for a minimum of four complete semesters. The student also will be referred to the District Attorney for appropriate action. No student who has been expelled for possession of a weapon will be readmitted to any school until the student has enrolled and participated in an appropriate rehabilitation or counseling program related to the reason, or reasons, for the student's expulsion. This policy does not apply to a student carrying or possessing a firearm or knife for purposes of involvement in a school-approved curricular or extracurricular activity.
4. On the first offense, students will be informed of the specific violation and given a period of time to comply with the Dress Code. During this time, parental contact will be made, and the student will be allowed to remain in school unless the violation is disruptive. A student who does not comply with the Code as directed will be suspended until compliance is reached. Subsequent violations will result in more serious consequences.
5. Students will receive a grade of zero (0) for assignments.
6. Suspension of bus privileges may be a form of disciplinary action.
7. Refer to School Board Policy on Sexual Harassment.
8. Acts of assault and aggravated assault, including verbal threats, are considered serious, violent acts that are not tolerated. Following a thorough investigation of allegations, the offender may be required to participate in a threat assessment
program prior to reentering a school program. Serious disciplinary action, including suspension and expulsion, also may be taken. A student could face disciplinary action for failing to report to a teacher or administrator knowledge of plans or actions of another person when those plans or actions, if carried out, could result in harm to another.

9. Battery or physically aggressive behavior are considered serious, violent acts that are not tolerated. Following an investigation of an incident, the offender may be required to enroll and participate in, or agree to participate in, an anger management or conflict resolution counseling program.

10. Refer to Bomb Threat Section Below

11. False activation of a fire alarm is considered serious, dangerous and extremely disruptive, is not tolerated, and violates the law. Serious disciplinary action, up to and including suspension and expulsion from school may be taken, and the appropriate law enforcement authorities will be involved and the Board will support prosecution of violators to the fullest extent of the law.

12. Refer to Terrorizing Section Below.

**Bomb Threat**
Communication of false information of a planned bombing on school property, at a school sponsored function, or in a firearm free zone are considered serious, violent and extremely disruptive acts that are not tolerated, and that violate the law. Serious disciplinary action, up to and including suspension and expulsion from school may be taken, and the appropriate law enforcement authorities will be involved. The Board will support prosecution of violators to the fullest extent of the law. As stated in Louisiana Revised Statute 14:54.6, the communicating of false information of a bombing threat on school property, at a school-sponsored function, or in a firearm free zone, whether or not such threat involves fake explosive devices is the intentional impartation of conveyance, or causing the impartation or conveyance by the use of the mail, telephone, telegraph, word of mouth, or other means of communication, of any such threat or false information knowing the same to be false. Whoever commits the crime of communicating false information of a planned bombing on school property, at a school-sponsored function, or in a firearm-free zone, shall be imprisoned with or without hard labor for not more than twenty years. Upon commitment to the Department of Public Safety and Corrections after conviction of a crime committed on school property, at a school sponsored function, or in a firearm-free zone, the department shall have the offender evaluated through appropriate examinations or tests conducted under the supervision of the department. Such evaluation shall be made within thirty days of the order of commitment. “At a school-sponsored function” means the specific designated area of the function, including but not limited to athletic competitions, dances, parties, or any extracurricular activity.

**Terrorizing**
Terrorizing is considered serious, violent and extremely disruptive acts that are not tolerated, and that violate the law. Serious disciplinary action, up to and including suspension and expulsion from school may be taken, and the appropriate law enforcement authorities will be involved. The Board will support prosecution of violators to the fullest extent of the law. As stated in Louisiana Revised Statute 14:40.1, terrorizing is the intentional communication of information that the commission of a crime of violence is imminent or in progress or that a circumstance dangerous to human life exists or is about to exist, with the intent of causing members of the general public to be in sustained fear for their safety; or causing evacuation of a building, a public structure, or a facility of transportation; or causing other serious disruption to the general public. It shall be an affirmative defense that the person communicating the information provided was not involved in the commission of a crime of violence or creation of a circumstance dangerous to human life and reasonably believed his actions were necessary to protect the welfare of the public. Whoever commits the offense of terrorizing shall be fined not more than fifteen thousand dollars or imprisoned with or without hard labor for not more than fifteen years, or both.

**Possession and Use of Electronic Communication (Wireless Devices)**
The student is governed by the Student Use of Instructional Technology Policy which can be found on www.stpsb.org under Policies/Curriculum and Instruction.

The St. Tammany Parish School Board desires to promote an environment that is conducive to instruction and learning. Wireless devices used by students to communicate with others inhibit the creation of such an environment and is disruptive to the learning process. The Board also desires to protect students' personal privacy, while on school property and at school events. The emergence of camera wireless device technology has created a new set of privacy and data protection challenges for school officials. Thus, the use of any type of photograhic equipment to tape images or sound recordings that are in violation of law or otherwise invade the privacy of other individuals is prohibited and will result in discipline according to policy. Any exception to the prohibition of wireless devices requires the advance permission of the school principal. This prohibition shall be strictly construed in favor of protecting the privacy of all individuals.
Under this policy, the term "wireless devices" includes, but is not limited to, cellular phones (whether analog or digital), camera phones, beepers, pagers, text messaging devices and PDA's that are used as telecommunication devices or to transmit text messages, as well as any other wireless electronic telecommunication devices.

Students shall be allowed to possess a telecommunication device (cell phone) on a school campus during the instructional day or on the bus to and from school provided the device is turned to the off position, completely stowed away, and not in use. Stowing of cell phones is defined as being placed in the student’s locker, school bag, purse, or pockets and shall not be displayed in view using any type of clip or other device. If a student is found using a cell phone, displaying a cell phone, or in possession of a ringing cell phone during the instructional day or on the school bus, the disciplinary procedures as outlined in the District Handbook for Students and Parents shall be utilized as a consequence. The Superintendent or his/her designee may authorize exceptions to this policy on an individual, case by case basis. Nothing in this policy shall prohibit the emergency use of electronic telecommunication devices by any student or person. Emergency shall mean an actual or imminent threat to public health or safety which may result in loss of life or injury. Use or operation of an electronic telecommunication device shall mean the device is either visible or turned to the on position for receiving or transmitting signals. Possession and/or use of other electronic devices by students shall be prohibited unless authorized by the Superintendent or his/her designee. The School System will not be responsible for lost or stolen electronic devices.

Any student found using a cell phone, displaying a cell phone, or in possession of a ringing cell phone during the instructional day, may have the cell phone confiscated by the principal/designee and have disciplinary consequences. The parent/guardian will be required to retrieve the cell phone from the school principal/designee.

Progressive consequences will be followed as outlined below:

Use or Related Disruption

- Warning or Administrative Detention
- Administrative Detention or Saturday Detention or In School Suspension
- Saturday Detention or In School Suspension or Suspension
- Suspension and/or Expulsion

Related disruption and/or refusal to hand over a cell phone when directed by a school system employee may result in more severe disciplinary action such as suspension and/or expulsion.

Off-Campus Activities

All rules and regulations in this Handbook apply to field trips and all other school-sponsored functions. Also, school officials may hold students accountable for their behavior off the school campus if that behavior has an adverse effect on the learning environment of the school. In keeping with State of Louisiana laws, the St. Tammany Parish School System takes a strong stand against behavior that may adversely affect the learning environment of schools. In no way, however, does this disciplinary position imply that the St. Tammany Parish School System takes the responsibility for supervising and taking disciplinary action for all off-campus behavior.

Conduct On the School Bus

In order to establish and maintain a safe atmosphere for all persons on the bus, as well as those on the roads of our Parish, students are expected to adhere to these requirements of conduct on buses.

- Be completely seated facing the front of the bus.
- Keep their hands and feet to themselves.
- Talk in a low (normal) tone of voice.

The bus driver, together with the principal, assumes full responsibility for discipline of students riding buses. Any disciplinary problems will be reported by the driver to the principal of the school. The principal is responsible for determining necessary disciplinary action. If actions are sufficiently serious, the principal may suspend bus privileges to the student. Any parent of a student suspended from riding a school bus has the right to appeal to the Superintendent. The Superintendent or his designee will conduct a hearing on the merits of the bus suspension.

A student damaging a school bus will be subject to suspension from school. Any student suspended for damage to a school bus will not be readmitted to school or allowed to ride any school bus until payment in full has been made for such damage or until readmittance is directed by the Superintendent or his designee.
If the conduct of a student becomes such that removal from the bus becomes essential, the driver will discharge the student at the student's regular stop. A student riding a school bus will never be unloaded for disciplinary purposes anywhere except at his/her designated stop, unless he/she is endangering the lives of others on the bus. Under normal circumstances, students must have written parental permission, authorized by the principal, to get off at a bus stop other than the student's assigned stop.

**Sexual Harassment**

The St. Tammany Parish School Board is committed to providing a safe and stable climate free from sexual harassment by students, Board Members, Superintendent, administrators, teachers, and other employees who contract with or provide services for the Board or any other personnel associated with the Board and over whom the Board can exercise influence.

Sexual harassment is a violation of the law and School Board policy and will not be tolerated, condoned, or overlooked. The Board requests and encourages persons associated with the School System who believe that they have been sexually harassed as a result of their association with the School System to report such harassment to specified Sexual Harassment Investigating Officers or school principals.

The Board through its designee(s) will promptly, thoroughly, and fairly investigate reports of sexual harassment and take appropriate action that is consistent with the results of the investigation and the legal requirements afforded by law.

The School System and Board will not tolerate retaliation by anyone associated with the School System against one who files a complaint of sexual harassment. Inappropriate behavior by students will be handled according to their school's discipline procedures.

Some acts of sexual misconduct are considered criminal and are subject to prosecution. The Board and School System will fully cooperate with law enforcement agencies and the District Attorney in investigating and prosecuting such criminal offenses.

Reporting of incidents involving student-to-student harassment should be made to the principal at the child's school. If an employee is involved as an alleged harasser, the report should be made to a Central Office Sexual Harassment Investigating Officer.

**Bullying**

As defined by Act 861 of 2012, bullying is a pattern of one or more of the following:

- Gestures, including but not limited to obscene gestures and making faces;
- Written, electronic, or verbal communications, including, but not limited to calling names, threatening harm, taunting, malicious teasing, or spreading untrue rumors;
- Electronic communication including but is not limited to a communication or image transmitted by email, instant message, text message, blog, or social networking website through the use of a telephone, mobile phone, pager, computer, or other electronic device;
- Physical acts including but not limited to hitting, kicking, pushing, tripping, choking, damaging personal property, or unauthorized use of personal property;
- Repeatedly and purposefully shunning or excluding from activities; where the pattern of behavior is exhibited toward a student, more than once, by another student or group of students and occurs, or is received by a student while on school property, at a school-sponsored or school related function or activity, in any school bus or van, at any designated school bus stop, in any other school or private vehicle used to transport students to and from schools, or any school sponsored activity or event.

The pattern of behavior must have the effect of physically harming a student, placing the student in reasonable fear of physical harm, damaging a student’s property, placing the student in reasonable fear of damage to the student’s property, or must be sufficiently severe, persistent, and pervasive enough to either create an intimidating or threatening educational environment, have the effect of substantially interfering with a student’s performance in school, or have the effect of substantially disrupting the orderly operation of the school.

Personnel at all levels are responsible for taking corrective action to prevent bullying at any school sites or activities.
Allegations of bullying will be promptly investigated, giving due regard to the need for confidentiality and the safety of the alleged victim and/or any individual(s) who report incident(s) of bullying. An individual has the right to report an incident(s) of bullying without fear of reprisal or retaliation at any time. Retaliation is defined as meaning "to pay back (an injury) in kind." When a person is accused of having behaved in an inappropriate fashion, especially bullying, the common reaction of that person is to be angry and want to pay the "alleged victim" back (retaliate). Retaliation must not occur and will not be tolerated.

Proven allegations of bullying can have serious consequences for the person deemed guilty, including verbal or written reprimand, in-school or out-of-school suspension, disciplinary reassignment, and/or expulsion.

Victims of bullying have responsibilities. Victims should clearly tell the bullies to stop. If bullying persists, victims should not ignore the incident(s) but should report immediately the incident to someone at school. Students should tell their parent(s). If the bullying continues after having clearly told the bullies to stop, students should make a written record of the incident including dates, times, witness or witnesses, and parties involved in the incident. The incident should be reported immediately to an adult who has authority over the bullies, for example, a teacher, guidance counselor, assistant principal, or principal. Victims should avoid being alone with the person(s) who attempted to bully them in the past. Victims of bullying who feel uncomfortable reporting this fact to adult personnel at school should contact another appropriate adult or friend who will report on their behalf.

To minimize the risk of being accused of bullying, students should keep their hands to themselves, remember that no one has the right to harm another person in any way, think before speaking, immediately apologize for accidentally saying or doing anything that has made another person feel oppressed, and report all incidents of bullying behavior they have witnessed to appropriate school personnel. Students should not touch anyone without his or her permission. Students should not interact with a person after that person has perceived their behavior toward them as "inappropriate" and has clearly told them to "stop". Nor should they make remarks that may cause another person to feel "oppressed" (stressful, scared, intimidated).

**Drug Detection and Control Program**

The School System has strong policies and programs intended to educate students about the dangers of drug abuse and to prohibit their presence or use at school. Applicable Federal and State laws and School Board policy are followed diligently. An ongoing phase of the program consists of providing students demonstrations about the drug detection process at school and other drug education activities in conjunction with the Drug-Free Schools Program.

Another phase of the Drug Detection and Control Program consists of unannounced, periodic drug searches of the schools by local law enforcement. Guidance programs and actual searches by school officials, when suspicion of illegal drugs is present, are key elements of the Drug Detection and Control Program.

When illegal substances are found, the following procedures will be adhered to by the school administration.

1. Proper law enforcement authorities, parent(s) or guardian(s), and the Central Office will be notified immediately when suspected illegal substances are confiscated or found on a campus. The authorities will analyze the material as soon as possible, report their findings to the principal, and file a report with the Office of the District Attorney. The confiscated material will remain property of the authorities.
2. The authorities will be given the name, address, and telephone number of the student in possession of the illegal substance.
3. If the authorities indicate that charges will be filed, the parent(s) or guardian(s) of that student will be notified. If the student is removed from school by the officers, the student and the parent(s) or guardian(s) must arrange an appointment with the principal before returning to the campus. This appointment should be made as soon as possible after the student is released by the authorities.
4. If the authorities indicate that charges will not be filed, the principal will follow the disciplinary policy for drug-related offenses as indicated in this *Handbook*.

**School Disciplinary Action for Drug-related Offenses**

A goal of the School System is to convey to students that the use, possession or distribution of any drug, chemical or other substance without proper authority and permission is wrong and harmful. The seriousness of substance abuse among young people has resulted in legal action at the State and Federal levels. In recognition of the potential life-altering affects that substance abuse can have, the State has passed legislation aimed at helping school officials discourage such abuse.
Also, several Acts of Congress and State statutes have been enacted resulting in mandated drug-related and controlled dangerous substance expulsions from school, programs of drug prevention, and identification of Drug Free Zones as an area inclusive of any property used for school purposes by any school, within 1000 feet of any such property, and school buses. Violators of the laws concerning Drug Free Zones will be prosecuted to the full extent of the law.

Louisiana law requires that any student 16 years of age or older found guilty of possession of, knowledge and intentional distribution of, or possession with intent to distribute any illegal narcotic drug, or other controlled substance on school property, on school bus, or at a school event, following a hearing by the Superintendent or his designee, will be expelled from school for a minimum of four complete semesters.

Any student who is younger than 16 years of age found guilty of these drug offenses, following a hearing, will be expelled from school for a minimum of two complete semesters. Any case involving a student in kindergarten through grade five found guilty of possession of, or knowledge of and intentional distribution of or possession with intent to distribute any drug or controlled substance on school property, on a school bus, or at a school event shall be referred to the local school board through a recommendation for action from the superintendent or designee.

School principals or their designees will refer any student arrested for these drug offenses for testing or screening by a qualified medical professional for evidence of abuse of alcohol, drugs, or other controlled dangerous substances. State law requires that a student expelled for drug-related offenses must provide written documentation that he or she and a parent or legal guardian have participated in a rehabilitation or counseling program related to the offense leading to the expulsion before readmission to any school program. A meeting with the central office supervisor is required prior to return to the school campus following any such period of expulsion.

Students found guilty of using, being in possession of, consuming or being under the influence of alcohol, look-a-like alcohol or look-a-like drugs, over the counter inhalants, or delirants on school property, on a school bus, or at a school event will receive a minimum 5 day suspension or possible expulsion. The student will be required to complete a drug-use assessment, followed by participation in a School System approved prevention and/or intervention program for families and students. These acts of misconduct are not to be confused with incidents of using, being in possession of, consuming or being under the influence of an illegal narcotic drug or a controlled dangerous substance which results in expulsion. Verification of an appointment for an assessment and agreement to enroll in the approved program is required before reentry into school following the period of suspension or expulsion.

Students found guilty of possession of drug paraphernalia (anything that can be associated with drugs or controlled dangerous substances in the sense of use, possession or distribution of them) on school property, on a school bus or at a school event will receive a minimum 5 day suspension. Subsequent offenses may result in expulsion.

**Suspension Procedure**

The following procedure is followed if suspension of a student is required.

1. Prior to any suspension, the school principal or his/her designee will advise the pupil in question of the particular misconduct of which he/she is accused and will state the basis for such accusation.
2. The student will be given an opportunity at the time to explain his/her version of the facts to the school principal or his/her designee. Any student whose presence poses a continued danger to persons or property or represents an ongoing threat of disruption may be removed immediately from the school premises without benefit of the above-described procedure. The necessary procedure should follow as soon as practical after the student has been removed from school.
3. Written notice of the suspension, including the reasons for the suspension, will be mailed to the parent(s) of the suspended student.
4. Any parent or legal guardian of the suspended student who believes that the disciplinary action taken is unwarranted has the right to appeal to the principal. The next level of appeal is the Superintendent or his designee.
5. A student suspended for damages to any property belonging to the School System or school personnel will not be readmitted to school until payment in full has been made or until the student is directed to return to school by the Superintendent.
6. During a suspension, students are forbidden to come on school grounds or to attend or participate in any School System or school-sponsored event to include, but not limited to, athletic events without advanced written permission from the Superintendent or his designee. Any student who violates this ban will be subject to legal sanctions for trespassing.
7. When a student is suspended, the following procedure will be used for re-admitting the student to school.
   - **1st Suspension** — The parent must bring the student to school for a conference with the principal before the student can be admitted back to school.
   - **2nd Suspension** — The parent must bring the student to the School Board Annex for a conference with the Supervisor of Child Welfare and Attendance before the student will be admitted back to school.
   - **3rd Suspension** — The parent must bring the student to the School Board Office for a conference with the appropriate Administrative Supervisor before the student will be admitted back to school.

8. The school principal or his/her designee will have the option of using an alternative to suspension program in lieu of out-of-school suspension for offenses that are covered in the program, provided funding for the program is available.

9. All procedures, rules, and regulations established for disciplinary programs for suspended students must be adhered to by students and parents or guardians. Students and guardians or parents will be informed by written notice of the procedures, rules, and regulations of disciplinary programs.

**Expulsion Procedure**
Students who are suspended from school three (3) times during the same school year who commit a fourth offense will be expelled from the School System until the next school year begins in the fall, subject to the review and approval of the School Board. Expulsion will be recommended immediately for certain major offenses. Each expulsion case will be reviewed prior to the beginning of the next school year for possible reinstatement into the St. Tammany Parish School System. Serious offenses committed by students may subject the student to expulsion beyond the beginning of the next school session.

The expulsion procedure will include the following steps.
1. The principal will recommend the expulsion of the student.
2. A hearing will be conducted by the Superintendent or his designee.
3. Upon concluding the hearing, the Superintendent or his designee will determine whether or not the student will be expelled from the School System or whether or not other corrective or disciplinary action should be taken.
4. At the hearing, the principal/teacher may be represented by any person of his/her choice.
5. The student may be represented by any person of his/her choice.
6. The student will remain suspended from school until the hearing takes place.
7. Within five (5) days after a decision expelling a student is rendered, the parent(s) or guardian(s) may request that the St. Tammany Parish School Board review the findings of the Superintendent or his designee at a time set by the School Board.
8. The School Board, after reviewing the findings, may affirm, modify, or reverse the action previously taken.
9. The parent or guardian of the pupil may, within ten (10) days, appeal to the district court for the Parish an adverse ruling by the School Board in upholding the action of the Superintendent or his designee.
10. A felony conviction of any student or incarceration of any student in a juvenile institution for committing any act that would be deemed a felony if committed by an adult will be cause for expulsion of the student for a period of time determined by the Board. Such expulsion takes a two-thirds (2/3) vote by the elected Members of the Board.
11. When a student is entered in Florida Parish Juvenile Detention Center, the St. Tammany Parish Jail or any correctional institution, whether evidenced by the school receiving an official drop slip, or as otherwise discovered or determined by the St. Tammany Parish School System, before any student is allowed to re-enter, enroll or re-enroll into the St. Tammany Parish School System, a meeting shall occur with the Disciplinary Supervisor to determine potential placement.

**Additional Disciplinary Authority:**

**Suspension of Driver's License**
Principals will notify the Louisiana Department of Public Safety and Corrections, Office of Motor Vehicles, of any student between the ages of 14 and 18 who has been suspended or expelled from school for ten (10) or more consecutive school days or has been assigned to an alternative educational setting for ten (10) or more consecutive days for:
- infractions involving the sale or possession of drugs, alcohol, or any other illegal substance;
- the possession of a firearm; or
- an infraction involving assault or battery on a member of the school faculty or staff.
The Office of Motor Vehicles will suspend for one year the drivers' licenses of such students who are between the ages of 15 and 18, in accordance with the provision of State law. The term "license" or "driver's license" includes a class "E" learner's license and intermediate license.

**Individuals with Disabilities Placement in Alternative Educational Settings**

Refer to Individuals with Disabilities Placement in Alternative Educational (IDEA) Regulations and Louisiana Bulletin 1706 found at each school site.

**Search and Seizure**

As a security measure used to protect students and staffs, school officials must sometimes, if deemed a necessary or precautionary step, initiate or help law enforcement officials conduct a search of school for dangerous, illegal, or prohibited items. The policies and practices followed in the search and seizure process are based on Federal and State law. The practice is carried out judiciously and with the rights of all in mind.

According to State law, the School System is the exclusive owner of all public school buildings, all desks and lockers within the building assigned to any student, and any other area of any public school building or grounds set aside specifically for the personal use of the students. Any teacher, principal, school security guard, or administrator may search any building, desk, locker, area, or grounds for evidence that the law, a school rule, or School Board policy has been violated. The teacher, principal, school security guard, or administrator may search the person of a student or his personal effects when, based upon the attendant circumstances at the time of the search, reasonable grounds exist to suspect that the search will reveal evidence that the student has violated the law, a school rule, or a School Board policy.

Such a search will be conducted in a manner that is reasonably related to the purpose of the search and not excessively intrusive in light of the age or sex of the student(s) and the nature of the suspected offense. Any search of a student will, if possible and reasonable under the circumstances, be done by a teacher, administrator or other School System representative of the same sex, with at least one (1) adult witness present throughout the search. Classroom searches, with multiple students present, will be conducted in a manner that is reasonable under the particular facts and circumstances leading to any such search, but shall not require more than two adult persons to be present for any such search.

Documentation will be made of all searches of a student's person. The student will be given a receipt for all items impounded. The parent(s) or guardian(s) of the student will be notified in writing of all searches of the student's person. Random searches of students or their personal effects with a metal detector may be conducted at any time in accordance with law.

The search of a person will, unless circumstances dictate otherwise, be limited to directing the student to remove all items from his or her pockets, directing the student to remove footwear, coats or other outerwear necessary under the circumstances, and directing the student to open and remove all items from any container he or she may be carrying. A pat down of the person is permitted when the person is reasonably believed to possess a weapon, or when circumstances exist that indicate the necessity of a pat down search. Under no circumstances will a strip search or body cavity search be conducted by any school personnel.

If the person refuses to comply with the directions to be searched, and there is a belief that a law has been violated, then, to the extent practicable, the person will be detained, and the appropriate law enforcement authorities will be contacted. If school officials know from the outset that a law has been violated, the appropriate law enforcement authorities will be contacted as soon as possible, and the decision to search the person will be made by the law enforcement personnel. If no violation of the law is suspected but reason exists to search a student who refuses to be searched, that student will be dealt with according to school disciplinary procedures. Refusal to comply with directions to be searched is grounds for discipline.

Under the same circumstances, if the person is a non-student, he or she will be directed to leave campus and, if the person refuses, the appropriate law enforcement authorities will be called to remove the person from school. Unless otherwise prohibited by law, any school principal, administrator, or school security guard may search the person, handbag, briefcase, purse, or other object possessed by any person who is not a student enrolled at the school, or a school employee, while in any school building or on school grounds, either by conducting a random search with a
metal detector or when reasonable suspicion exists that such person has any weapons, illegal drugs, alcohol, stolen goods, or other materials or objects, the possession of which is a violation of the law, a school rule, or a School Board policy.

Upon the seizure of any firearm, bomb, knife, or other implement or device that can be used as a weapon or the careless use of which might inflict harm or injury, or upon seizure of any controlled dangerous substance as defined by State law, the principal or his/her designated administrator will report the confiscation to the appropriate law enforcement officials. The principal or his/her designated administrator may report the confiscation of any other implement, device or material to law enforcement officials.

Any implement, device or material required to be reported to law enforcement officials will be retained and secured by the school principal in such a manner as to prevent its destruction, alteration, or disappearance until the law enforcement authority either takes custody of the implement or material or provides notice that it need no longer be retained. The confiscated item(s) will be retained in a uniform, envelope-type container that has printed instructions regarding the information to be supplied to law enforcement concerning the confiscation. Items that need not be retained for law enforcement officials will be placed in the custody of the parent(s) or guardian(s) of the student following the hearing process and following disciplinary action, if applicable.

In order to ensure that items seized are properly secured, they will be placed in a safe, locked cabinet or locked desk to which only the principal or assistant principal will have access. The report to the appropriate law enforcement authority required by law will be in writing, signed by the principal or his/her designated administrator, and delivered to the appropriate law enforcement authority within 24 hours of the seizure. While a principal may designate another to prepare the above report, the principal will instruct the designee to keep a copy of the report and provide another copy to the principal at the time the reports are made. Copies of the reports will be maintained in a secure place for no less than two (2) years after the incident.

Failure of any principal or designated administrator to report to law enforcement officials the confiscation of any controlled dangerous substance or any firearm, bomb, knife, or other implement or device that can be used as a weapon is cause for disciplinary action for violation of policy and law. Likewise, failure of any principal or designated administrator to retain and secure such material or implement or device is grounds for disciplinary action for violation of policy and law.

Corporal Punishment
The St. Tammany Parish Public School System does not allow corporal punishment in the School System. Complaints concerning instances of impermissible corporal punishment should be reported to the school principal or superintendent for investigation.

Crimestoppers
To help maintain a safe and productive environment for learning in our schools, the School System has established a partnership with the Crimestoppers organization. The partnership provides an additional security measure that encourages students, parents, and others to report information about potential or actual criminal activity at school. The Crimestoppers program allows us to utilize a reporting system called the Safe School Hotline in all our junior high and high schools.

The local Crimestoppers organization encourages citizens to help solve and prevent crime through anonymous calls to a special telephone number maintained by the organization. The information is forwarded to appropriate law enforcement agencies and a special fund is available to pay a reward for tips that lead to an arrest. The Safe School Hotline operates in the same way to help solve crimes and prevent potential safety concerns on and/or around school campuses, school buses, and school events. The Crimestoppers Safe School Hotline system protects the caller’s identity by assigning a code number to each caller.

The Safe School Hotline number is 1-877-903-7867. Students and parents who have information about a serious or potentially serious school safety concern are urged to call the school principal or the Crimestoppers Safe School Hotline.
