

Student Teaching

The Experience

Student teachers are an important part of our school communities. In St. Tammany, student teachers are encouraged to attend meetings and are included in the decision making process at the school level. Our student teachers benefit from professional development, which encourages on-going educational and personal growth.

The Mentors

Our teachers love to teach. Mentors in the St. Tammany Parish Public School System guide student teachers through this experience in the classroom. Seasoned educators use their years of experience to offer advice and tips to student teachers in a positive environment.

The Advantage

Learning from experienced teachers in a positive classroom setting allows student teachers to grow professionally and to be prepared for a full-time teaching career. Student teaching is also an opportunity to network with educational leaders and display skills for future employers.
